OUR GROUP

Founded in 1878 as Charles P. Hayley & Company, Hayleys today accounts for 3.7% of Sri Lanka's export income, and 1.9% of the Country's GDP with internationally diversified business in Fiber, Hand protection, Purification of Activated Carbon, Transportation, Agri Products and Inputs, Plantations, Fabric, Consumer Products, Industry Inputs, Resorts, Power and Energy Investments and services.

Hayleys has grown from a small proprietorship in Sri Lanka's southern city Galle, into one of Sri Lanka's largest, most diversified public companies. The 138 year Hayley chronicle traverses the tapestry of time, changing with it and taking shape from it.

Today Hayleys is a Sri Lankan multinational conglomerate renowned globally and locally in certain specialized areas. Hayleys is Sri Lanka's largest Agriculture, Landscaping & Agri Business entity.

OUR COMPANY

Hayleys Agriculture Holdings Limited

We are a leading Agricultural/Landscaping company engaged in the production and marketing of horticultural products to the local and international markets. Incorporated in 1980 as a producer of hybrid flower Seed company for export markets, the company has today grown into a fully-fledged horticulture and landscaping services company.

- High infiltration/ less water retentions.

LANDSCAPING PROJECTS

Hayleys Horticulture and Landscape division undertakes a wide range of projects starting from home gardening scale to commercial scale projects. Regarded as Sri Lanka's trusted leader in professional landscaping.

LIVE WALLS (VERTICAL GARDENS)

This concept was innovated in Europe and now popular worldwide. But the concept is new to Sri Lanka and we are the pioneers of the business in Sri Lanka.

We have brought the right technology from world renowned companies in the horticulture industry.

We have already completed large scale projects. Our system is a Patent pending product and we have the privilege of calling this system "Hayleys Green Wall System".

"Hayleys Green Wall System" is a rapidly spreading concept in urban areas. With the urban population increasing land for construction of housing has to take shape in high - rise building with hardly any garden space. People's desire to be closer to nature has created a huge demand for live walls and we are geared to make that dream a reality both locally and overseas. We create beautiful vertical garden even when living so many stories above the ground or in confines space.

NURSERIES

- Sri Lankan largest inhouse plant productions capacity with fully automated green houses.
- Experience in nurseries management in over 35 years.
- Vast range of healthy/ vigorous shrubs & rootballed trees availability for local & export market.

F1 HYBRID SEED - OPEN POLLINATED SEED PRODUCTION

QSCL is the pioneer in F1 hybrid flower seed production in Sri Lanka. Having over three decades of experience in hybrid flower seed production. We produce on contract commercial seed volumes with required shades and vigour to satisfy the demands of global customers. Three of our customers are among the top five in the world flower seed industry, In addition to F1 hybrid seeds we are also engaged in open pollinated seed production activities.

Backed by over thirty years experience in the floriculture industry we are rapidly expanding our services to meet the demands of even the most discerning customer. Our involvement in this industry has helped create 600 direct employment opportunities whilst providing indirect employment opportunities to almost 800 families.

CUT FLOWER

We market export quality cut flower including gerbera, roses, chrysanthemums, snapdragon, baby's breath etc. to many flower shops, weddings & event planners and florists. We have setup many strategic partnership with key players in the floriculture industry. The cut flower division of the company has introduced more than 30 varieties of gerberas with different shades of colour, to the local market. This has helped us to command a significant market share in the gerbera cut-flower segment.

OTHER SERVICES

- Urban beautification.
- Compost & coir dust supply with export quality.
- Landscape consultees & project management.
